Employment, Education and Social Welfare

# Minutes

**Project: “Monitoring the prescription of diclofenac with the aim of optimisation of its safe use”**

## Workshop for Healthcare professionals in PHC

**Hosting institution:** Institute for Medicines and Medical Devices (CInMED)

**Type:** ZOOM online conferencing platform

**Date:** Monday, 01/10/2021

**1st Session:** 12h – 13h

**2<sup>nd</sup> Session:** 15h – 16h

### Participants:

#### CInMED:

1. Maja Stanković, Project Manager and Lead researcher
2. Denis Reković, Project Coordinator

**Healthcare professionals in PHC** according to Attendance sheet

At the beginning of the workshop Project manager and Lead Researcher Ms Maja Stanković welcomed all participants from the 18 Primary Healthcare Centres in Montenegro who, despite engagement in regular and COVID 19 caused work activities found time to listen to the key points related to this project. Ms Maja Stankovic gave her presentation with focus on the next points given below:

- Presentation of the Project " *Monitoring the prescription of diclofenac with the aim of optimisation of its safe use*", which is co-funded by the European Union
- Project's background, general and specific objectives, indicators that need to be achieved, target groups, final beneficiaries
- CInMED Annual reports on consumption of medicines with worried data about consumption of diclofenac systemic formulation. These data are of special concerns because of CInMED continuous efforts to rationalise prescribing of diclofenac. Namely CInMED, accordingly to competent authorities for medicines in EU countries took measures to minimise the risk of exposing serious cardiovascular adverse reactions in patients who are predisposed for such type of adverse reactions.
- Data on diclofenac consumption in Montenegro are presented with comparison to its consumption in surrounding countries and EU countries.

Monitoring the prescription of diclofenac with the aim  
of optimization of its safe use

The project is implemented by

Joint EU-MNE Programme for  
Employment, Education and Social Welfare

- Thanks to this project CInMED as Project Coordinator, in collaboration with its Project partner is going to introduce warning messages in IS of PHC with ultimate goal to rationalise prescribing of diclofenac and improve public and individual health.
- The warning messages in IS of PHC will serve HCPs as reminder on key information on safety profile of diclofenac and necessary steps that need to be taken by their side to prescribe diclofenac in safe and effective way
- At the end of the workshop Ms Maja Stanković kindly asked HCPs to follow recommendations of CInMED which are scientifically and evidence based.

After presentatin druring discussion HCPs have had some questions, remarks and very useful suggestions for further improvements in their daily prescribing of diclofenac and other medicines.

The screenshot shows a Zoom meeting in progress. The main window displays a presentation slide from CinMED. The slide title is "PISMO ZDRAVSTVENIM RADIŠAMA" and the URL is "www.cinmed.me". The slide content discusses the use of diclofenac in medicine, mentioning the CALMS project and the Agency for Medicines and Medical Devices of Montenegro. A red banner on the slide reads "Sadržaj pisma je odobren od strane Agencije za lijekove i medicinska sredstva (CALMS)".

On the right side of the Zoom interface, there is a "Participants (20)" list. The list includes the following participants:

- CinMED (Host, me)
- Aldijana Zekovic
- Dom zdravlja Rozaje
- Dragana Vucevic
- DZ Bar - Anđela Stanović
- DZ Budva
- DZ KOLASIN
- DZ KOTOR
- dz tivat
- Galaxy J7 (2016)
- Iliriana Bisha Tagani DZ Ulcinj
- Jana Đapić
- Jelena Ivanovic

At the bottom of the Zoom window, there is a search bar with the text "Type here to search" and a system tray showing the time as 12:28 on 01-Oct-2021.

Pozdrav iz Bijelog Polja. Isto ovo predavanje bilo bi neophodno da se održi sa kolegama sa sekundarnog nivoa.
